December 2002

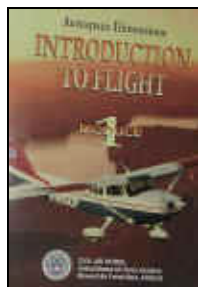

Aerospace Dimensions takes effect as standard Phase I & II aerospace textbook

Effective **1 January 2003**, *Aerospace Dimensions (AD)* becomes the only aerospace education textbook authorized for use in Phases I and II.

AD, which has been in use since January 2001, is a six-module text designed to introduce aerospace to cadets, especially middle school aged youth. It replaces *Aerospace: Flight of Discovery (FOD)*, which had been in use since 1992. Cadet aerospace textbooks are revised every few years to keep the content current and accurate.

In 2001, cadets were given two years to complete Phase II using either *AD* or *FOD*. Since then, as new cadets have joined CAP, they have been issued *AD*. Consequently, most Phase I and II cadets are already using the *AD* text and are unaffected by the phase-out of *FOD*.

If completed <i>Aerospace:</i> <i>Flight of Discovery</i> chapter:	Then receive credit for completing <i>Aerospace Dimensions</i> module:
1	1
2	2
3	3
4	4
5	5
6	6

Aerospace Dimensions

However, older cadets who had chosen to remain in *FOD* must now begin studying *AD*, as the transitional period expires on 1 January 2003, unless they have already earned the Mitchell Award (see the table at left for transition rules).

Phase III and IV cadets are not affected by this phase-out and continue to study *Aerospace: Journey of Flight*.

The *Aerospace Dimensions* modules (catalog #0037D), *Student Guide* (catalog #0037F) and *Leader Guide* (catalog #0037H) are available for purchase at the CAP Bookstore.

Cadet Programs Directorate welcomes DDR managers

The Cadet Programs team just got bigger and better.

In an effort to better fulfill the drug demand reduction program goals and meet the expectations of the U.S. Air Force and CAP members, the drug demand reduction program office was assigned to the Cadet Programs Directorate in November. Previously, the DDR office was located in the Operations Directorate.

The DDR program, which is sponsored by the USAF surgeon general's office, promotes CAP as a positive, drug-free lifestyle for youth.

Wing DDR administrators will still be working with Jan Hoffman, the Assistant Chief of Drug Demand Reduction. Jan's contact information has not changed (see box below), but he has a new office symbol: CPDA. The position of Chief, Drug Demand Reduction, is currently vacant. That office symbol has changed to CPD.

The move will only improve the customer service experienced by CAP volunteers in the field because the DDR program is a natural partner with the Cadet Program.

Welcome to the Cadet Programs team, Jan!

Jan Hoffman,
Assistant Chief,
Drug Demand Reduction
